

# 2010-2011 Energy Incentive

September 1st, 2010 through April 30th, 2011

The 2009-2010 CCPS Energy initiative was a success!

As a school system we reduced the equivalent to 2,351 tons of the greenhouse gas carbon dioxide (CO<sub>2</sub>), or 11.1 railroad cars full of coal.

## Incentive Details

### Incentive Quick facts:

Earn \$1,000 when your school reduces 11% of your school's baseline energy usage.\*\*

### Additional Bonus\*

1st place wins \$1,500

2nd place wins \$1,000

3rd place wins \$ 500

- Each school's usage from Sept 1, 2010—April 30, 2011 will be compared against it's KWH usage between Sept 1, 2007- April 30, 2008.
- The goal for each school is to reduce baseline energy consumption by 11%.
- Each school will earn a prorated amount for savings between 1% and 11%.
- The three top performing schools with the greatest energy reduction relative to their baseline, will be eligible for a bonus cash award of up to \$1,500.
- \*\* Adjusted incentive award amounts are applied to the Brooks Administration Building, Hunting Creek Annex, and Kings Landing Park. Additionally, these facilities are not eligible for the bonus. Since Calvert Middle School is new and has no electricity consumption baseline, they will not be participating the incentive program until next year.

### **Green Schools in Action!**

Your energy reduction efforts conserve natural resources and support Green Schools! Visit the "Green Schools" website for tips on how to get your entire school involved!

The "EmPOWER Maryland" initiative challenges Maryland to reduce energy consumption by 15 percent by the year 2015.
