

2012-2013 Energy Incentive

September 1st, 2012 through April 30th, 2013

The 2011-2012 CCPS Energy initiative was a success!

Compared to the usage in 2007-2008, as a school system we reduced the equivalent to 2,446 tons of the greenhouse gas carbon dioxide (CO₂), or 13.3 railroad cars full of coal.

Incentive Quick facts:

Reduce energy consumption from 2007-2008 by more than 12% and your school will earn an award. *

Additional Bonus **

1st place wins \$1,500

2nd place wins \$1,000

3rd place wins \$ 500

Incentive Details

- Each school's usage from Sept 1, 2012—April 30, 2013 will be compared against its KWH usage between Sept 1, 2007- April 30, 2008.
- Each school will earn a prorated amount for savings below 12% of the 2007-2008 KWH consumption. *Awards range from \$1 for an 12.01% reduction to \$1000 for a 22.00% reduction.
- The top three schools with the greatest energy reduction will be eligible for the Additional Bonus. (see chart on left)

** Adjusted incentive award amounts are applied to the Brooks Administration Building, Calvert High School, Hunting Creek Annex, and Kings Landing Park. Additionally, these facilities are not eligible for the bonus.

Green Schools in Action!

Your energy reduction efforts conserve natural resources and support Green Schools! Visit the "Green Schools" website for tips on how to get your entire school involved!

The "EmPOWER Maryland" initiative challenges Maryland to reduce energy consumption by 15 % by the year 2015.
